# RADISSON BLU HOTEL & SPA CORK

*Shane Fitzpatrick* | GENERAL MANAGER

At the Radisson Blu Hotel and Spa Cork we have just completed a full refurbishment of our main Toilets in the Hotel Lobby.

I found them to be extremely professional, attentive, competitive and they have a great eye for what is required. It is great for a Hotel Manager to have the reassurance that they will project manage the process and this allows me to carry on with my own job knowing the work will get completed on time.

Refurbishing any Area of a hotel can be very challenging especially when you remain open with guests but Bathrooms 4U team of contractors go above and beyond to ensure the work got completed on time.

The work they completed as transformed the hotel Toilets and I would have no hesitation in recommending them.
