

Online Ordering For Hotels

Flipdish can manage every aspect of hotel hospitality — from online room service to table ordering in the bar or restaurant.

Flipdish Online Ordering solutions for Hotels:

- **Branded Website**
Giving you more direct orders
- **Branded Apps**
Your brand in your customers pocket
- **Self Service Kiosks**
Fast and simple way for guests to order room service
- **Table Ordering and QR Menus**
Facilitate guests with a contactless ordering experience while increasing revenue

Manage multiple locations in one place

Have global oversight, control and reporting, whilst allowing local decisions that are right for each individual hotel.

Drive revenue with smartphone room-service ordering

Guests can order from the room service menu on their mobile device so need for hardware installation.

Easily manage your menu

Efficiently manage your menu across room service, bar and restaurant with the Flipdish portal.

Fast, convenient and reliable

Delight your guests with best in class online ordering technology in your hotel.

Guests have the convenience of ordering directly from the Gourmet Bar menu on their own mobile device. The data shows that of orders in the first six months,

90%

were done online via the website or app and 10% over the phone. Our hotel guests want to order online.
