## The Benefits of LG

### Powder Coated machines

Helps with Longevity and provides and easy to clean exterior

### Tempered Glass Door

Less susceptible to breakages and scratching.  
Unlike competitors machines.

### Energy Saving

Our LG machines are ENERGY STAR qualified these meet global energy efficiency standards.

### Embossed Inner Drum

Increasing surface area for contact with the fabric. Better for removing dirt and stains.

### Efficient operation

With multiple dampers which vary per machine, the LG light commercial range is quieter and has less vibration during a wash cycle

### Heat Treatment

The shaft connecting the drum and motors are heat treated. This helps protects against long term wear and tear.

## The Benefits of LG

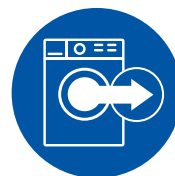

### Less Residual Moisture

High spin speeds mean less drying time. Saving you money and helping the environment

### Liquid Dosing Connection

Our Lg machines come with the Liquid Dosing as standard. Unlike our competitors where this is an additional cost.

### Large Door Openings

Get more in and more out. Making loading easier and more ergonomic

### Water Regulations Compliant

The new range of LG machines are compliant with Fluid Category 5. Ensuring water compliance makes them suitable for all businesses.

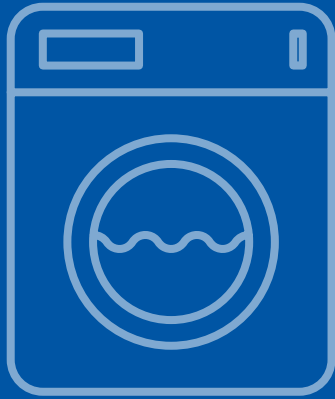

### Sluce available

Our machines are easily programmed to ensure all types of cycles and be created to suit your needs.

### Space saving

The LG Giant Washers and Dryers can be stacked to fit into the smallest of spaces.

## WASH EXTRACTORS

LG GIANT-C+ · 10KG CAPACITY

### LG GIANT-C+

#### About LG Giant-C+

LG's Commercial Laundry Giant C gives you a total laundry solution including the most suitable equipment and full support for your business. LG will revolutionize the way you conduct business.

#### Atomizing system

Provides a better wash performance by helping soak the clothes faster. This also reduces the length of the wash programs helping you to be more efficient.

#### Why LG Giant-C+?

The LG Giant is one of the world's bestselling Commercial washing machines. Its compact design, easy to program feature and reliability make it a winning combination for your business.

#### Tub Cleaning System

A dirty tub from hours of long operation can affect washing performance. Our tub cleaning program helps you keep a clean tub even in the busiest locations.

# TUMBLE DRYERS

## LG GIANT-C+ · 10KG CAPACITY

### LG GIANT-C+ DRYER

#### About LG Giant-C+ Dryers

Available in Gas or Electric Heated. Both Gas and Electric Versions can be downgraded to 13A.

The Electric dryers come with Sensor dry technology as standard.

#### AdaptAble™ Controls

AdaptAble™ Controls provide the space saving and convenience without compromising capacity while retaining easy to reach controls. The controls are always at a convenient height and are versatile enough to match your needs.

#### Why LG Giant-C+ Dryers?

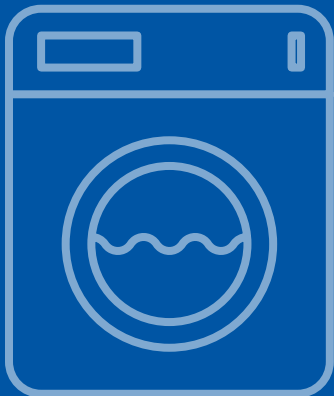

The Electric dryers come with Sensor dry technology as standard. This helps over drying and can help prevent fires.

The dryers can be stacked on top of LG Giant C+ washers or on top of other LG Giant C+ Dryers. Giving you and your business flexibility.

#### Easy Access Lint filter

The surface of lint filter increased and provides the easy access and cleaning without opening door.

This creates better drying action and helps to reduce frequency of cleaning.

## WASH EXTRACTORS

### LG TITAN-C · 15KG CAPACITY

#### LG TITAN

#### About LG Titan C

Large 15Kg drum capacity with a Gravity drain as standard. This machine has a more commercial DNA than the Giant C+. Its large capacity allows it to process huge amounts of clothes in a short space of time.

#### Why LG Titan C?

The LG Titan C is suitable for a range of sectors. It is available to be compliant with Fluid Category 5 and has a sluice program function. It is equipped with 5 individual trigger signals for the detergents. Allowing you to process all types of fabrics.

#### Easy Programming

Intuitive programming controls allow operators to choose from a variety of functions and programs, including price, cycle time, cycle parameters, spin-speed and more, ensuring that all washing requirements are met.

#### Multilingual Readout

Our mission is to make customers happy and enjoy doing laundry with LG Commercial machines. Easy to read directions in multiple languages.

**COMING  
SOON**

## **TUMBLE DRYERS**

**LG TITAN MAX · 15KG CAPACITY**

### **LG TITAN MAX DRYER**

#### **About LG Titan Max Dryers**

Available initially as Gas Heated.  
The Electric Heat version is due Late 2021.  
The Electric dryers come with Sensor dry technology as standard.

#### **Excellent Dry Performance**

Thanks to new wider big fan, air flow is improved and clothes can be dried faster than before. Better dry performance, better energy efficiency

#### **Why LG Titan Max Dryers?**

The Electric dryers come with Sensor dry technology as standard. This helps over drying and can help prevent fires.  
The dryers can be stacked on top of LG Titan washers or on top of other LG Titan Max Dryers.  
Giving you and your business flexibility.

#### **Heavy Duty Motor**

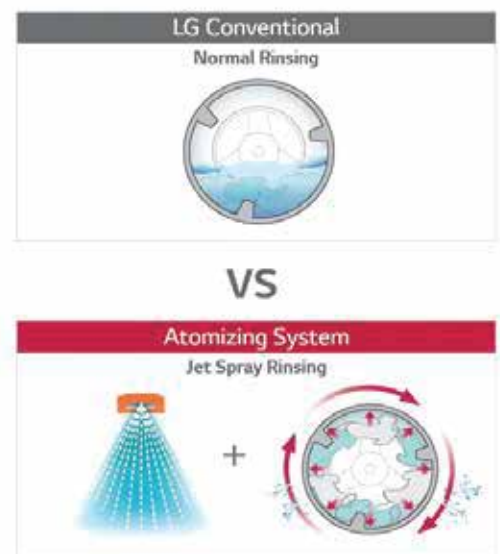

LG Commercial Dryers incorporate the sturdy motor additionally and it provides better air flow and heating system. This creates better drying action and increases dry capacity.

## LG FEATURES

### Atomizing System

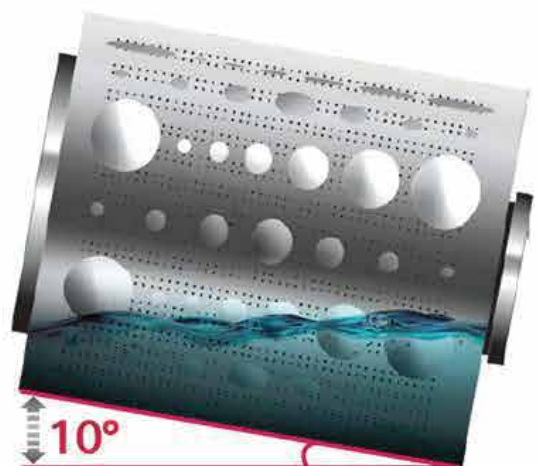

The Atomizing nozzle sprays fresh water onto the clothes and the door. This helps produce a rapid fill so clothes are soaked sooner and longer providing a better washing performance. It also cleans the door glass every time the water sprays on it, reducing your burden of cleaning any excess soap residue.

### 10° Tilted Drum

LG's Commercial Washer tub is tilted at 10°. It enables the washer to have a higher level of water in the tub than the competition. This allows us to use less water while not sacrificing superior washing performance.

**Water Saving**

## 3+1 HYGIENE CARE LAUNDRY SYSTEM

**Step 1**  
**Clean Tub Cycle**  
3-minute clean before use

**Step 2**
