Some companies we Wrk with:

1. Download the app

Pretty straightforward so far.

2. Enter your requirements

This is the bit where you tell us who you need. We'll ask how many staff you need, the rate of pay and the length of the shift, then we'll handle the rest.

3. Watch your shifts fill in real time

You don't *have* to watch, but you can if you like. We're not a kettle.

4. Send messages to your booked Wrkstars

You can reach out to our Wrkstars before they arrive for their shift, that way you know they're prepared to work.
