Bathrooms4U also design them with ease of maintenance and functionality as a priority, especially where there is a high volume of people. We listen carefully to what the client requires and deliver tailor-made solutions.

Commercial projects by their nature have unique challenges and we use various techniques to deliver bathrooms that are stylish and hard-wearing, easy to maintain, easy to clean and conservative with water use. B4U partners with Ireland's leading water conservation specialists meaning a possible 70% reduction in water and energy costs for the client.

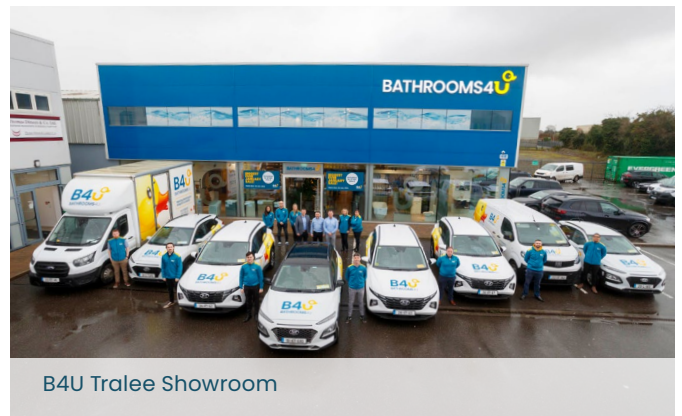

Bathrooms4U will manage your entire bathroom refurbishment projects - be it guest room en-suites or public bathrooms for your restaurant, bar, leisure & spa facilities or commercial premises from office spaces right through to international airports. We have honed our techniques & specialised our processes to now have the capacity to take on 10 commercial bathroom refurbishment projects every week so you can plan ahead for your business with full confidence safe in the knowledge that B4U will always deliver on time and on budget.

## Eccles Hotel & Spa

---

Working with Bathrooms4U has been an absolute pleasure. With such an old hotel there is no bathroom the same. It was almost an experiment for them, every wall they knocked down they found old pipes and voids and were able to help us make the bathrooms bigger and more efficient.

Bathrooms4U were given a time frame and were in and out in that time frame. When you have an expert like Alan and his crew from Bathrooms4U they'll guide you on what has worked in all their many other renovations. Working with Bathrooms4U has been amazing journey from start to finish. Going from what it was there's no comparison. For any renovation in the future, it is Bathrooms4U that I will be ringing.

## Inchydoney Hotel & Spa

It was a huge advantage to one company to have responsibility for all the trades. Bathrooms4U are experienced in working in a hotel environment and were great at working with our team. And the quality for their work was exactly what we wanted.

I'd highly recommend them for any project.
