

Luxury
INTERIORS

about us
**INTERIOR
SOLUTIONS
FOR THE
WORLD
OF LUXURY**

As the president of Th.Kohl, already a prominent woodworking facility and the leading European pharmacy contractor, Princess Astrid von Liechtenstein has led Crown Designs to success in engineering, building and furnishing hotels, private residences and luxury retail stores.

Under her leadership, Crown Designs has completed more than 500 projects while consistently providing a wide variety of customers with the best quality and a highly individualized crafting and assembly process. A group of talented project managers works side-by-side with the company's engineers to ensure the highest manufacturing quality and a non-negotiable respect of the timetable, often exceeding expectations.

about us
**INTERIOR

philosophy
**FULL CONTROL
ALONG THE
VALUE CHAIN**

Crown Designs combines design and manufacturing excellence with full control over logistics and installation anywhere in the world.

Established to execute projects of any size on any continent, Crown Designs adds an indisputable touch — sometimes visible, yet often hidden behind cutting-edge engineering — to every solution and every space.

our service
**EXCELLENCE
AT EVERY STAGE**

Crown Designs is usually assigned turn-key projects as well as parts of complex development and remodeling plans.

PROJECT MANAGEMENT

FINISHING AND ASSEMBLY

RESIDENTIAL

Many private clients continue to trust Crown Designs for their residences, being those villas, penthouse apartments, or vacation homes.

HOTELS AND RESTAURANTS

Crown Designs engineers, manufactures and installs hotels' lobbies, rooms and restaurants, sourcing, transforming and assembling every material chosen by the client and the designer.

RETAIL

Crown Designs' extensive experience runs from fashion stores to luxury brands' corners within duty free shops. Being born in one of the most prominent Italian wine districts, Crown Designs also manufactures and restores wineries' outlet stores.
