

MAP YOUR BUSINESS

With no upfront or ongoing equipment cost, attract high spending visitors by installing EasyGo chargers on your site

INTRODUCTION

- We install chargers best suited to your site
- All chargers costs covered by EasyGo
- We map your business as a charging location and advertise your site to tens of thousands of EV Drivers across Ireland
- We provide you with a guaranteed annual return and also a % revenue share

HOW IT WORKS

Number of charge points

We carefully manage sites to ensure the right number of chargers are always available to meet customers needs.

Guaranteed Income

You receive an annual site contribution for for the duration of contract. You can also expect incremental sales from visitors.

Revenue Share

In addition to the fixed contribution, you receive a revenue share together with re-imburement of electricity costs.

Contracted Term

The initial contract term is for 20 years with options for extension in five-year increments.

Project Management

Our experienced projects team co-ordinate grid connections, power management and associated works.

Installation & Commissioning

We expertly handle everything from start to finish.

Starbucks - Naas (Drive Through)

OPERATING COSTS

GOOD NEWS -

THERE ARE NO OPERATING OR MAINTENANCE FEES

- Units are fully serviced and maintained through the life of the contract
- Software support, GSM connectivity and 24/7 call centre support costs are all covered under the contract
- The products we provide are of premium quality and design, from World Class manufacturers. This underpins our mission statement that EasyGo is "Probably Ireland's Best Car Charging Network".
