

ICS

CONTRACT FURNISHERS

Beautifully designed, made-to-order  
*architectural joinery & furniture fit out*

[www.icsfurniture.com](http://www.icsfurniture.com)

Experience working *in collaboration* with architects and project managers

ICS Contract Furnishers have vast experience in providing full project management, from initial consultation to final installation.

Within a single company, we offer a unique integration of services and products – combining consultation, design and manufacture with full project management; traditional skills with modern technology, and the friendly personal touch of a family run firm with total professionalism.

We tune into the architectural setting and gain a full understanding of the exact requirements of the end users.

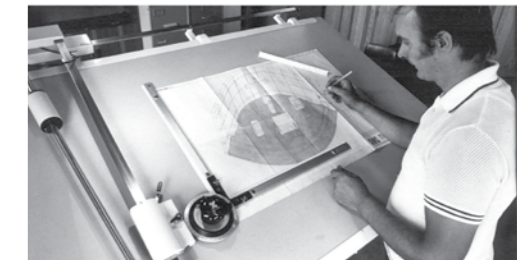

Our step-by-step approach:

- Early-stage consultation services
- Layout and design
- 3D presentation and fine tuning
- Manufacture
- Delivery and installation

ICS Contract Furnishers was founded in 1972 by Charlie Duignan. With over four decades of experience, our business is a leading provider of bespoke turnkey furniture solutions for organisations of all types.

Our longstanding and experienced team at ICS Contract Furnishers have a deep understanding of everything to do with furnishing large areas of congregation; the variety of spaces and settings, the requirements, the sensitivities and the need to harmonise with widely varied architectural settings and details.

The company's master craftsmen, with the help of the latest computerised technology, manufacture the furniture to your requirements in our state of the art factory.

## Architectural Joinery *Defining spaces.*

We create architectural joinery for public and private buildings, including doors, screens, panelling and more. We work with conservation architects to preserve the integrity of a building; matching style, colour and, where required, the aged appearance of existing woodwork.

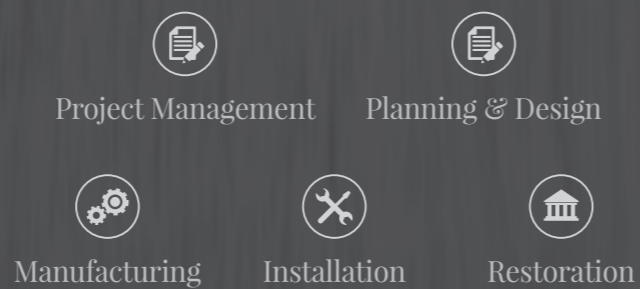

We specialise in developing contemporary furniture or reproducing traditional style doors and can perfectly match the features, style and colours to existing furniture design.

All our joinery is bespoke and constructed using high quality hard or soft timbers.

Utilising traditional skills and in conjunction with the latest computerised manufacturing machinery.

### Architectural Joinery Products:

- Screens
- Doors
- Panelling
- Stairs
- Radiator Covers
- Reception Area

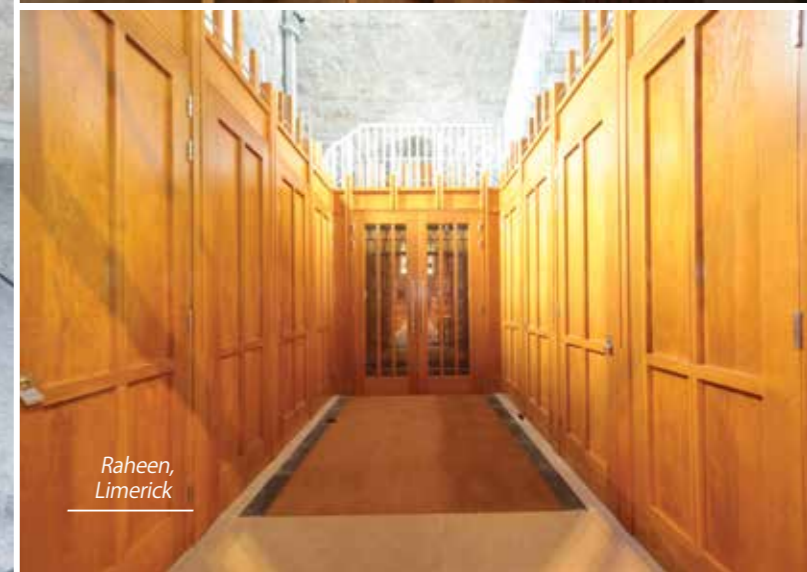

Raheen,

Ireland

Provider of *bespoke furniture* solutions.

In every project, our aim to help enhance the functionality and comfort of communal spaces.

We have developed and supply a number of innovative designs that meet the needs of our clients, bringing flexibility, functionality and comfort, adding to the spaces they occupy.

We work closely with architects, project managers and committees to:

- Enhance the aesthetics, functionality, convenience and comfort of their spaces.
- Use their spaces for a wider variety of activities.
- Add value to spaces for short or long term uses.

### What we do:

- We are a family owned and managed joinery company servicing the interior fitout sector.
- We specialise in hospitality, commercial along with retail, leisure and tourism.
- We provide bespoke joinery for new builds and refurbishment projects.
- We work with architects and contractors throughout the process from development to finishing and installing.
