HOW TO START A CHARGE IN  
**THE EZO APP**

# STARTING A CHARGE IN THE **EZO APP**

*Once you've found your charger in the EZO app, starting a charge is quick and simple.*

Tap the charger icon on the map

Select the connector that matches your vehicle

Plug in your cable

Tap “Select” in the app

The icon will change from **available** to **in use** once your session begins

You can monitor your charge in real time **track progress, cost, and charging speed** all within the app.

When you're finished, simply tap **“Stop”**, unplug, and you're ready to carry on your journey.
